

## Barker's Buttress

1. **Cub's Climb** 1 The left side of the wall to finish up a shallow corner.
2. **Pup's Climb** 2 Follow the crack system to finish on pockets.
3. **Bonzo** 5 Climb up past a break to reach the obvious letterbox hold, once this is gained finish direct.
4. **Pet's Corner** 3 Climb up the wall and crack just left of the arête.
5. **The Arête** 4 Directly up the edge.
6. **Whippet Wall** 4 Straight up the centre of the wall finishing using the crack.
7. **Barker's Chimney** 1 The corner chimney.
8. **Pluto** 3 The undercut wall to the right is climbed on its left side.
9. **Pluto Variant 6a+** The right side of the wall using small holds to an easy finish.
10. **Catwalk** 1+ Step off the boulder and traverse along the break to finish up Pluto.
11. **Hyena** 2 From the top of the boulder climb the steep arête.
12. **Cerberus Crack** 2 The curving crack just right of Hyena.
13. **Peke's Perch** 2 The thin crack and small niche right of Cerberus Crack.

## Holly Tree Buttress

14. **Pingers Left Hand** 5 The left side of the wall without using the ledges or left edge.
15. **Pingers** 5 Climb directly up the centre of the wall past pockets and breaks, brilliant.
16. **Pingers Right Hand** 5+ The right side of the wall without using anything from Pingers or anything beneath the overlap at the start.

*The next two problems are covered by the holly tree which makes them either difficult to get to or painful to try.*

17. **Prickly Rib** 1+ The wall left of the tree to finish with the rib.
18. **Holly Tree Chimney** 1 Start right of the holly tree in the corner, climb up and cross the slab beneath the overhang and finish up the hidden chimney.
19. **Touch and Go 6c (E2 6b)** Start as for the last route but pull over the nose on its left side using small holds and the arête of the nose to a bold finish.
20. **Holly Tree Wall** 3+ Climb the wall then move into the thin crack just right of the last problem.
21. **Holly Tree Hover** 4+ Start as for Holly Tree Wall, then pull over the overhang at the left of the crack to a short strenuous finish.
22. **Saint's Wall** 1+ The wide crack immediately right of Holly Tree Wall.
23. **Oak Tree Wall** 3 Start in the short awkward corner, then move right using the ledge as little as possible to move up the scoop to a mantelshelf finish.
24. **Oak Tree Gully Arête** 2 The good arête on the left of the gully.
25. **Oak Tree Gully Wall** 1 The short wall just to the right.
26. **The Mantelshelf** 3+ Climb up the polished slab to make a move over the bulge at its left end.
27. **Humpty Dumpty** 3+ Directly up the right side of the bulge without use of the chimney.
